

IntelliJ IDEA Eclipse on Mac keypad

Editing

Ctrl + Space	Basic code completion (the name of any class, method or variable)
Ctrl + Shift + Space	Smart code completion (filters the list of methods and variables by expected type)
Alt + Meta + Space	Class name completion (the name of any project class independently of current imports)
Shift + Meta + Enter	Complete statement
Shift + Meta + Space	Show a popup window with documentation for the symbol at caret
Shift + F2	Open browser with documentation for the selected item
Ctrl + mouse over code	Brief info
Meta + F1	Show description of error or warning at caret
Alt + Shift + P	Implement base interface/class methods in the current class
Alt + Shift + Z	Surround selected code fragment with if, while, try/catch or other construct
Meta + /	Comment/uncomment current line or selected block with line comments
Shift + Meta + /	Comment/uncomment code with block comments
Alt + Shift + Up	Select successively increasing code blocks
Alt + Shift + Down	Decrease current selection to previous state
Alt + Q	Show intention actions and quick-fixes
Alt + Enter	Show Intention Actions
Alt + Meta + L	Reformat code
Alt + Meta + O	Remove unused imports and reorder/reorganize imports
Alt + Meta + I	Indent current line or selected block according to the code style settings
Meta + I / Shift + Tab	Indent/Unindent selected lines
Meta + X	Cut current line or selected block to clipboard
Meta + C	Copy current line or selected block to clipboard
Meta + V	Paste from clipboard
Shift + Meta + V	Paste from recent buffers...
Alt + Meta + Up	Duplicate current line or selected block
Meta + D	Delete line at caret
Shift + Meta + J	Smart line join
Meta + Enter	Smart line split
Shift + Enter	Start new line
Shift + Meta + U	Toggle case for word at caret or selected block
Shift + Meta +] / Shift + Meta + [Select till code block end/start
Meta + Delete	Delete to word end
Meta + Backspace	Delete to word start
Meta + NumPad+ / Meta + NumPad-	Expand/collapse code block
Meta + NumPad+	Expand all
Meta + NumPad-	Collapse all
Meta + F4	Close currently focused content

Search/Replace

Meta + H	Find a string in active editor
Meta + K	Repeat the last Find/Replace operation
Shift + Meta + K	Repeat the last Find/Replace operation in reverse direction
Meta + F	Replace a string in active editor with another string
Alt + Meta + G	Find a string in multiple files
Shift + Meta + S	Search structurally (Ultimate Edition only)

IntelliJ IDEA Eclipse on Mac keypad

Usage Search

Meta + G / Shift + Meta + G	Find usages / Find Usages in file
Alt + Shift + O	Highlight usages of the symbol at caret in active editor
Shift + Meta + G	Show usages of the symbol at caret

Compile and Run

Meta + F9	Compile all modified and dependent files in the project
Shift + Meta + F9	Compile the selected file or package
Alt + Shift + F10	Choose and run configuration
Alt + Shift + F9	Choose and debug configuration
Alt + Shift + X	Run
Alt + Shift + D	Debug
Shift + Meta + F10	Run context configuration

Debugging

F6	Step to the next line in this file
Meta + F5	Step into the particular method
F7	Step to the first line executed after returning from this method
Meta + R	Run to the line where the caret is
Meta + U	Evaluate arbitrary expression
F8	Resume program execution
Shift + Meta + B	Toggle line breakpoint at caret
Shift + Meta + F8	View and manage all breakpoints and watchpoints

Navigation

Shift + Meta + T	Quickly navigate to a class by name
Shift + Meta + R	Quickly navigate to a file by name
Alt + Shift + Meta + N	Quickly navigate to any symbol by name
Meta + F6 / Shift + Meta + F6	Go to next/previous editor tab
Escape	Go to editor (from tool window)
Shift + Escape	Hide active tool window
Meta + L	Navigate to a line in editor by its number
Meta + E	Show list of recently viewed files
Alt + Meta + Left / Alt + Meta + Right	Navigate back/forward
Meta + Q	Move through the most recent change points
Alt + F1	Select the current class or method in any view
F3	Navigate to the declaration of the symbol at caret
Meta + T	Navigate to the implementation(s) of the selected class or method
Shift + Meta + I	Show a popup window with the symbol (and its implementations) content
Meta + U	Navigate to the declaration of the method that current method overrides or implements
Shift + Meta + Up / Shift + Meta + Down	Go to previous/next method
Meta +] / Meta + [Move to code block end/start
Meta + O	Popup structure of the current file for quick navigation
F4	Browse hierarchy for the selected class
Shift + Meta + H	Browse method hierarchy for the selected method
Shift + Meta + C	Browse call hierarchy for the selected method
Shift + F1	Next/previous highlighted error
F12	Open editor for the selected item and give focus to it
Alt + Home	Jump to Navigation Bar
Shift + Meta + F11	Toggle bookmark at the current location
Meta + F11	Toggle bookmark with mnemonic
Ctrl + #[0-9]	Go to numbered bookmark
Shift + F11	Show list of all bookmarks

IntelliJ IDEA Eclipse on Mac keypad

Refactoring

Alt + Shift + V	Move the selected class, method, package or static member to another package or class and correct all references
Alt + Delete	Delete the selected class, method or field, checking for usages
Alt + Shift + R	Rename the selected symbol and correct all references
Alt + Shift + C	Change signature of the selected method or class and correct all references
Alt + Shift + I	Inline the selected method or variable
Alt + Shift + M	Turn the selected code fragment into a method
Alt + Shift + L	Put a result of the selected expression into a variable
Alt + Meta + F	Put a result of the selected expression into a field
Alt + Meta + C	Replace selected expression with a constant (static final field)
Alt + Meta + P	Turn the selected expression into method parameter

VCS/Local History

Alt + BackQuote(`)	Context aware popup with list of commonly used VCS actions
--------------------	--

Live Templates

Alt + Meta + J	Surrounds the selection with one of the template
Alt + Shift + Meta + J	Show popup list of live templates starting with the specified prefix
iter	Iteration according to Java SDK 1.5 style
inst	Check object type with instanceof and downcast it
itco	Iterate elements of java.util.Collection
itit	Iterate elements of java.util.Iterator
itli	Iterate elements of java.util.List
psf	public static final
thr	throw new

General

Alt + #[0-9]	Open corresponding tool window
Meta + S	Save all files and settings
F5	Detect all externally changed files and reload them from disk
Shift + Meta + F12	Hide all tool windows
Alt + Shift + F	Add selected node to favorites
Meta + BackQuote(`)	Change current code style scheme, color&fonts scheme, keypad or Look&Feel
Alt + Meta + S	Configure application settings
Alt + Shift + Meta + S	Configure project structure
Shift + Meta + A	Quickly navigate to action by name

To find any action inside the IDE use Find Action (Shift + Meta + A)
